PROFESSIONAL SUMMARY

Full Stack Developer pursuing an MCA, with hands-on experience building full-stack apps using React.js, Spring Boot, and PostgreSQL. Skilled in RESTful APIs, Docker, and Jenkins CI/CD, with working knowledge of AWS and Generative AI. Seeking an AI Software Developer role.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, SQL
Full Stack: React.js, Tailwind CSS, HTML5, CSS3, Spring Boot (Beginner), FastAPI, REST APIs
Databases: PostgreSQL, MySQL, MongoDB
Generative AI: LLMs, Prompt Engineering, OpenAI API, Gemini API, Hugging Face, Embeddings, RAG, Vector Databases (ChromaDB)
AI Frameworks: LangChain, LangGraph
Agentic AI: AI Agents, Tool Calling, Function Calling, Agentic Workflows
DevOps & Cloud: Git, GitHub, Docker, Kubernetes, Jenkins, CI/CD, AWS (EC2, S3, IAM, RDS)
Libraries & Tools: Pandas, Postman, VS Code, IntelliJ IDEA
Core CS Fundamentals: Operating Systems, DBMS, AI/ML, DSA, OOPS, Software Development Life Cycle (SDLC), Agile

EXPERIENCE

Java Full Stack Development Intern | Kinetrexa Software Private Limited | Aug 2026 – Sep 2026

PROJECTS

Employee Dashboard CI/CD Pipeline | React.js, Tailwind CSS, Docker, Jenkins, GitHub, Vercel

- Developed a responsive Employee Management Dashboard using React.js and Tailwind CSS.
- Containerized the application using Docker for consistent, portable deployment environments.
- Configured a Jenkins CI/CD pipeline to automate build and deployment workflows.
- Managed source control with GitHub and deployed the application on Vercel for production access.

TalentBridge – Job Application Portal | React.js, Spring Boot, PostgreSQL, JavaScript, Tailwind CSS

- Developed a full-stack Job Portal application using React.js, Spring Boot, and PostgreSQL.
- Built and tested RESTful APIs, integrating frontend and backend modules for seamless data communication.
- Developed an ATS-style Resume Analyzer using JavaScript to calculate skill match scores, identify missing skills, and recommend suitable job roles.
- Built a responsive, intuitive user interface using Tailwind CSS.

AI Career Intelligence Platform | React.js, Spring Boot, PostgreSQL, GenAI, RAG

- Developed a GenAI-powered career platform using React.js and Spring Boot that analyzes resumes against job descriptions to identify relevant skills, missing skills, and personalized career requirements.
- Implemented LLM-based structured analysis, embeddings, vector search, and RAG to enable context-aware resume querying and AI-generated skill-gap analysis and learning recommendations.
- Built AI-driven interview preparation and resume improvement features, generating role-specific interview questions and optimized resume suggestions based on user-provided career data.

EDUCATION

CMR University, Lakeside Campus – Bengaluru
Master of Computer Applications (MCA) | 2025 – 2027

Kristu Jayanti College – Bengaluru
Bachelor of Computer Applications (BCA) with Analytics | 2022 – 2025

CERTIFICATIONS

- NPTEL – Joy of Computing Using Python
- NPTEL – Advanced Computer Networks
- Simplilearn – Full Stack Development
- AWS – Foundations of Prompt Engineering
- AWS – Fundamentals of Machine Learning and Artificial Intelligence
- NASSCOM FutureSkills – RPA Developer Foundation
- IBM SkillsBuild – Getting Started with Generative AI
